

Fiscal Year 2022 Transportation and Infrastructure Projects Requests

Transportation and Infrastructure Committee - Member Designated Projects

The U.S. House Committee on Transportation and Infrastructure announced March 3, 2021, that the Committee will accept requests for Member Designated Projects to be considered for inclusion in the upcoming surface transportation reauthorization legislation (commonly referred to as the 5-year federal “Highway Bill”).

Listed below are the projects Congresswoman González Colón has submitted to the House Transportation and Infrastructure Committee.

Project Title: PRHTA-01

Project Sponsor/Requestor: Puerto Rico Highways and Transportation Authority, P.O. Box 42007, San Juan, PR 00940-2007

Location: Lajas, Puerto Rico

Amount Requested: \$5,000,000.00

Explanation: Extension of Angel Castro Pérez Avenue (PR-122), from road PR-321 to road PR-166 (San Germán South Bypass), within the boundaries of the municipalities of San Germán and Lajas, PR. The proposed connector, 2.77 km long, consists of a 4-lane-divided typical section including paved shoulders at both sides to facilitate and improve the transport of goods, persons and services between both municipalities. The proposed project will provide a direct link between road PR-2 in the Municipality of San Germán and the Municipality of Lajas and its tourist area. It will provide an alternate route to PR-101, enhancing regional travel options and safety while protects the environment and promotes the economic development of the region

Project Name: PRHTA-02

Project Sponsor/Requestor: Puerto Rico Highways and Transportation Authority, P.O. Box 42007, San Juan, PR 00940-2007

Location: Gurabo, Puerto Rico

Amount Requested: \$4,800,000

Explanation: This Project includes the reconstruction of 16.4 kms of road serving as a connector for commuters from Gurabo to the Metropolitan Area (thru Trujillo Alto). The road, exhibiting high deterioration of pavements and safety devices, poses a safety hazard to daily travelers.

Project Name: PRHTA-03

Project Sponsor/Requestor: Puerto Rico Highways and Transportation Authority, P.O. Box 42007, San Juan, PR 00940-2007

Location: Bayamon, Puerto Rico

Amount Requested: \$ 7,884,000.00

Explanation: The proposed project consists of geometric improvements of the intersection of State Roads PR-2 (Km 10.0) and PR-6 (Km 0.0 to 0.3) to the intersection of State Road PR-2 (Km 9.0) with San José St., Urb. Alborada by adding grade separated turning movements and additional travel lanes that will improve the traffic operation of the intersections.
